PERSONAL STATEMENT

I am a Computer Science student at "Kadri Zeka" University, Gilan, and have completed an intensive Web Application Development training funded by the European Union, where I achieved a perfect score. I have hands-on experience in web application development with technologies such as HTMI, CSS, JavaScript, PHP, MySQL, anc Laravel, developing functional applications and ensuring database integration During my internship at Telekomi 1 Kosoves - Vala, I contributed to the development of an ESHOP platform for digital services, implementing the caline payment system and number verification through APIs. My responsibilities included developing backend logic and creating a moder, responsive user interface. I have a strong technical foundation and am passionate about developing

WORK HISTORY

Telekomi Kosoves -Vala | Prishtine
Software Developer Intern
01/2025 - Current

- As part of the development team at Telekom of Rosovo - Vala, I was responsible for the creation and development of an advanced ESHOP platform, dedicated to the purchase of mobile top-ups. interuet packages. and other digital services. This project aimed to modernize online services and provide users with a seamless and secure experience. My responsibilities included:
- Developing the online payment system for mobile top-ups and intranet packages.

Implemanting functionalities for number verification through internal SEMI API: Building a modern and responsive user interface using HTNI, OSS, Bootstrap, and JavaScript Dereloping backend logic with PHP and Laravel, integrated with a MISQL database Ensuring application security and sate handling of customer data in compliance with high standards.
• Collaborating mith the team on testine, documentation, and platform deployment This project enabled me to develop a fully functional solution widely used by citizens across Kosovo, aud provided me with hands-on experience in building large-scale commercial web applications
